CAREER OBJECTIVE

To attain a responsible and challenging position in a reputed and prestigious company and utilize my skills at the most for the development of the company.

PROJECT EXPERIENCE

Cryptography and Steganography for Securing Data in Images

Technologies: Python, Flask, AES-256, zlib, OpenCV, PIL

- Developed a secure **web application** using **Python and Flask** to embed encrypted and compressed data within images.
- Implemented **AES-256 encryption** and **zlib compression** to guarantee data confidentiality and efficiency.
- Applied **steganographic techniques** coupled with image quality analysis for stealthy and undetectable data embedding.
- Integrated **virus scanning** and designed a user-friendly interface to ensure security and seamless user experience.

GitHub: [View Project](#)

Effective Menu Planning and Cost Estimation through website

- Engineered a **web-based solution** to minimize event food waste by addressing overproduction.
- Designed a **user-friendly menu planning** interface to support efficient event coordination for caterers.
- Built a **cost estimation** calculator to ensure accurate budgeting and informed procurement decisions.
- Enabled **data-driven purchasing strategies** to optimize resource usage and reduce operational costs.

EDUCATION

10th Grade

SRI CHAITANYA SCHOOL, NUNNA, VIJAYAWADA, KRISHNA DISTRICT, 87%

Year of Passout: 2019

12th Grade

SRI CHAITANYA JUNIOR COLLEGE, GUDIVADA, KRISHNA DISTRICT, 66.5%

Year of Passout: 2021

Undergraduate

SESHADRI RAO GUDLAVALLERU ENGINEERING COLLEGE, Bachelor of Technology (B.T./B.Tech.)

Branch: Information Technology, **Year of Passout:** 2025, **CGPA:** 7.79

SKILLS

Development Languages: Java, Python

Technologies and Framework: HTML, CSS, JS

Database: Oracle, MySQL

Dev Tools: Maven, Jenkins, AWS EC2, VS Code, Eclipse

INTERNSHIP & ACADEMIC TRAINING

Java Full Stack Development Certification – Kodnest Technologies

- Gained hands-on experience in Core-Java MySQL, HTML, CSS, and JavaScript with practical exposure to full-stack web application development.

NPTEL

- Accomplished the course "INTRODUCTION TO IOT" and was awarded an **Elite Certificate**.

Data Analytics with Power Bi

- Built **interactive Power BI dashboards** using KPIs, charts, and dynamic filters to visualize global malnutrition insights and support data-driven decision-making.
- Performed **end-to-end data preparation** - including SQL-based cleaning, modeling, and performance optimization—to ensure accurate analysis and fast, responsive reports.

ACHEIVEMENTS

- Participated in Hackathon event conducted in **SRGEC**
- **TCS iON National Qualifier Test (NQT)** – IT, April 2025, with an overall score of 1952.92 out of 3000 (65.10%).
